FOR BUILDINGS PEOPLE REMEMBER

QUICK FACTS: Jotun Super Durable

Colours:	170*
Finishes:	4
Warranty:	25 Years**

At Jotun Powder Coatings, we are committed to creating value through superior durability, enhanced appearance and sustainability of our products. This is why Jotun is trusted to coat the world's most outstanding projects.

From the iconic Burj Khalifa in the UAE to the prestigious Kuala Lumpur Convention Centre in Malaysia, spectacular Marina Bay Sands hotel in Singapore and the impressive Varyap Meridian complex in Turkey, Jotun's quality shines through.

FRIENDLY ON DESIGN. TOUGH ON PROTECTION.

We understand that designing a building is a combination of aesthetics and functionality. Therefore the coating you choose should also be both decorative and provide the best protection.

Jotun Super Durable was created to achieve both these goals, providing you with choice and confidence. With a variety of finishes, colours and special collections, Jotun Super Durable allows you to realise and implement your boldest ideas.

Specially formulated to endure the test of time and the elements, Jotun Super Durable is well suited to withstand harsh levels of UV radiation, inconsistent degrees of humidity, temperature variations and other severe weather conditions.

Jotun Super Durable is certified according to Qualicoat Class 2 and GSB Master Standards and has weathering performance in line with AAMA 2604 ensuring the highest levels of protection in addition to a multitude of decorative choices. The product is backed by a comprehensive 25-year product warranty** when used on aluminium substrates in accordance to Jotun Powder Coatings' guidelines.

SURPASSING EXPECTATIONS

With a high level of weathering resistance and the added convenience of an easy single coat application, Jotun Super Durable offers you an economical alternative to traditional multi-coat solvent based systems. In addition, the product provides multiple decorative choices, allowing you to bring your creativity to life.

Jotun Super Durable offers you high levels of abrasion and scratch resistance, making the coating capable of withstanding handling and mounting strains which also provides excellent protection during transportation.

To support the growing sustainable architecture trend, Jotun's Super Durable offers you a great alternative. Unlike liquid systems, this product does not contain any harmful Volatile Organic Compounds (VOCs) providing you with a greener and more environmentally friendly option.

Jotun Super Durable's performance speaks for itself, with an extensive track record in multiple high profile projects around the world. When you choose Jotun Super Durable, you can be certain that your creation will live up to your imagination.

ALSO FROM JOTUN

JOTUN DURASOL: FOR TIMELESS PROTECTION

An ultra-premium coating that offers the highest possible level of weathering resistance.

JOTUN FACADE: OPTIMISED COATING SOLUTION

Offers an optimal combination of corrosion protection and decorative choices.

AN ECO-FRIENDLY SOLUTION

Every time you use Jotun products, you can rest assured that you are working towards a greener, more sustainable future. Being environmentally friendly, our powder coatings do not contain solvents, so no Volatile Organic Compounds (VOCs) are released into the air. Oversprayed powder can be recycled with minimal wastage, and disposal is easy and safe. In addition, all Jotun Powder Coatings' products are lead-free.

THE FREEDOM OF DESIGN

Jotun Super Durable offers multiple colours, gloss levels and special effects so you can choose the finish that best encompasses the essence of your design. Our special colour collection 'ColourBeats' and textured finish 'The Sahara Collection' go one step further to ensure you have flexibility to meet your design specifications. Jotun Super Durable is also available in heat reflective technology with 'The Cool Shades Collection'— a range that reduces the temperature of aluminium building components exposed to sunlight. This innovative collection helps lower energy consumption by naturally keeping the building cooler. You can also get inspired by the enchanting colours of the Northern Lights with 'The Aurora Collection'. This sustainable collection provides a rich, organic and luxurious finesse to modern-day structures.

ABOUT JOTUN

Jotun is one of the world's leading manufacturers of decorative paints, marine, protective and powder coatings. The group has 74 companies and 39 production facilities on all continents. Jotun products are available in 90 countries through own subsidiaries, joint ventures, agents, branch offices and distributors. At Jotun Powder Coatings, we are committed to develop, produce and deliver solutions that create value through consistency in application, enhanced appearance and superior durability.
